F. Information

1. Grading systems of the institutions

SK TRENCIN01

The credit system of study, also known as ECTS, uses credits accumulation and transfer. Enables through credits evaluate the student burdens related to completing units of study program in accordance with the rules contained in the program of study.

Counting credits:

One ADUT credit is equal to 1 ECTS credit. Credit assessment of the subject expresses the proportion of student work necessary for its successful handling. This refers to different types of learning activities: theoretical, practical, research, field surveys, personal work, as well as examinations and other assessment forms.

Credits are numerical values assigned to units of the study program, expressing quantity of work required for their completion. The standard student load for the entire academic year is represented by 60 credits, 30 credits per semester.

Credit calculation:

The number of credits is calculated as the sum of the number courses per week + 1 (if course ends with examination) or + 0 (if course ends without examination). Then it needs to add + 0 (not need over the course extra activity) + 1 (need standar over the course activity) + 2 (need above standard course extra activity).

Academic degree system:

ECTS Gradind Scale consists from six ECTS grades :

GRADE	% of successful students normally achieving the grade	Definition
A - EXCELLENT	10	- outstanding performance with only minor errors
B - VERY GOOD	25	- above the average standard but with some errors
C - GOOD	30	- generally sound work with a number of notable errors
D - SATISFACTORY	25	- fair but with significant shortcomings
E - SUFFICIENT	10	- performance meets the minimum criteria
FX - FAIL	0	- some more work required before the credit can be awarded

PL TORUN01:**ECTS Credits:**

The Nicolaus Copernicus University follows the ECTS scheme, which means that ECTS credits are allocated to course units, lectures, practical works, etc. at each faculty. In ECTS, 60 credits represent one year of study (in terms of workload); normally 30 credits are given for six months (a term/semester). The Polish grading system in higher education is based on the 5 to 2 scale, where 5 is the best mark and 2 is the worst.

Moreover, students can also be marked with additional signs of + and -. Each of them equals half a point: + means 0.5 more. Some courses, however, are not evaluated on such a marking scheme and for these a student may simply obtain *zal.* or *zaliczenie* (EN. 'pass') which means that their workload was satisfactory and they have passed the course.

GRADES: The Student Exchange Office recommends the following grading equivalency table:

Uniwersytet Mikołaja Kopernika w Toruniu	ECTS	
	Grade	Predicate
5	A	Very Good
4,5	B	Better than good
4	C	Good
3,5	D	Better than satisfactory
3	E	Satisfactory
2	F	Unsatisfactory / Fail
Zal / Pass	Participation; i.e. the student has successfully and regularly attended the course.
