F. Information

1. Grading systems of the institutions

I CAMPOBA01:

all the information about the examination system and the Italian grading scale are available at the following link: <https://www.unimol.it/english/erasmus-incoming/examination-system/>. According to the Italian grading system, student's achievements are evaluated through a scale which goes from 0 to 30 points. Conventionally, sufficiency is achieved obtaining at least 18 points when taking the final exam for each courses, while excellence is awarded with 30 cum laude or 30 e lode. A conversion table between the Italian grading system and ECTS grades (at Unimol the values vary for each Department) is available at the following address: <http://oldweb.unimol.it/unimolise/allegati/51552/ECTS.pdf>

PL TORUN01:

The Nicolaus Copernicus University follows the ECTS scheme, which means that ECTS credits are allocated to course units, lectures, practical works, etc. at each faculty. In ECTS, 60 credits represent one year of study (in terms of workload); normally 30 credits are given for six months (a term/semester).

The Polish grading system in higher education is based on the 5 to 2 scale, where 5 is the best mark and 2 is the worst.

Moreover, students can also be marked with additional signs of + and -. Each of them equals half a point: + means 0.5 more. Some courses, however, are not evaluated on such a marking scheme and for these a student may simply obtain *zal.* or *zaliczenie* (EN. 'pass') which means that their workload was satisfactory and they have passed the course.

Uniwersytet Mikołaja Kopernika w Toruniu	ECTS	
Grade	Grade	Predicate
5	A	Very Good
4,5	B	Better than good
4	C	Good
3,5	D	Better than satisfactory
